WHEREAS, G4S provides security systems for prisons holding Palestinian political prisoners, as well as security systems for interrogation and detentions centers, where Palestinians are regularly subjected to torture; [\[22\]](#)

WHEREAS, due to Northwestern University’s lack of transparency in the specificity of its holdings, there is not definitive confirmation that the University is invested in the six targeted corporations, however, there is no published socially responsible investment policy that would prevent the University from being invested in any of the corporations at any given time;

WHEREAS, investment in these companies shows implicit support for the decisions and actions of these companies, as well as their consequences, which include the killings of civilians, and violations of their basic human rights;

WHEREAS, the aforementioned companies have a financial stake in the continuation of these human rights abuses;

WHEREAS, the consequences of these companies’ actions also affect the Northwestern community directly, including students whose families experience occupation, systematic discrimination, death, injury, and other

forms of human rights violations;

WHEREAS, the only way to achieve financial neutrality in such situations is to end our investment in and implicit support for such companies through divestment;

LET IT BE FINALLY RESOLVED, that ASG shall work to achieve greater transparency in university investments by forming an investment transparency task force.
